1 } Who We Are

We at Avrus Solutions, provide technology solutions for corporate and residential building fit-outs.

We are your 'audio visual integration specialists'

We are a single point of contact and assume responsibility for the design and integration of the technology system. This provides our clients the assurance that their technology in their corporate environment and home will perform to the desired outcome.

A modern living room with a large flat-screen TV mounted on a white wall. The TV displays a scene with a person's back. To the left of the TV is a tall, thin black speaker, and to the right is another similar speaker. Below the TV is a long, low black console. In the foreground, there is a red rug and two round, metallic, spiral-patterned side tables. A white sofa is visible on the right side of the room. Large windows in the background show a view of a green landscape. The text 'YOUR AUDIO VIDEO INTEGRATION SPECIALISTS' is overlaid in the center of the image.

3 | What We Offer

**Medical
Educational
Corporate
Hospitality
Residential**

A modern living room with large windows on the left side, offering a view of a city skyline. A red sofa is positioned in the foreground, and a fireplace is visible in the background. The room is decorated with a striped armchair and a small table with books. The overall atmosphere is bright and contemporary.

From conception to completion AVRUS has you covered. Every client is unique therefore requires an individual solution that meets their needs and brand identity. We believe that every solution should be elegant, simple to use and a collaboration of technology and art.

4 | A Work Of Art

We are able to pull from our experience in the corporate and private sectors. This experience ensures that we are able to give you, our client, the latest technology and industry standard solutions to make your concept into a reality.

All this while adding value to your project and maintaining flexibility for the future expansion in a cost effective solution.

5 | Being Green

Avrus are proactively educating the market to the benefits of automation and are also committed to helping the environment through the use of green technologies and energy management solutions.

Environmental sustainability is a core belief of the Company and by doing so we are being responsible to our Clients and being good stewards of our planet.

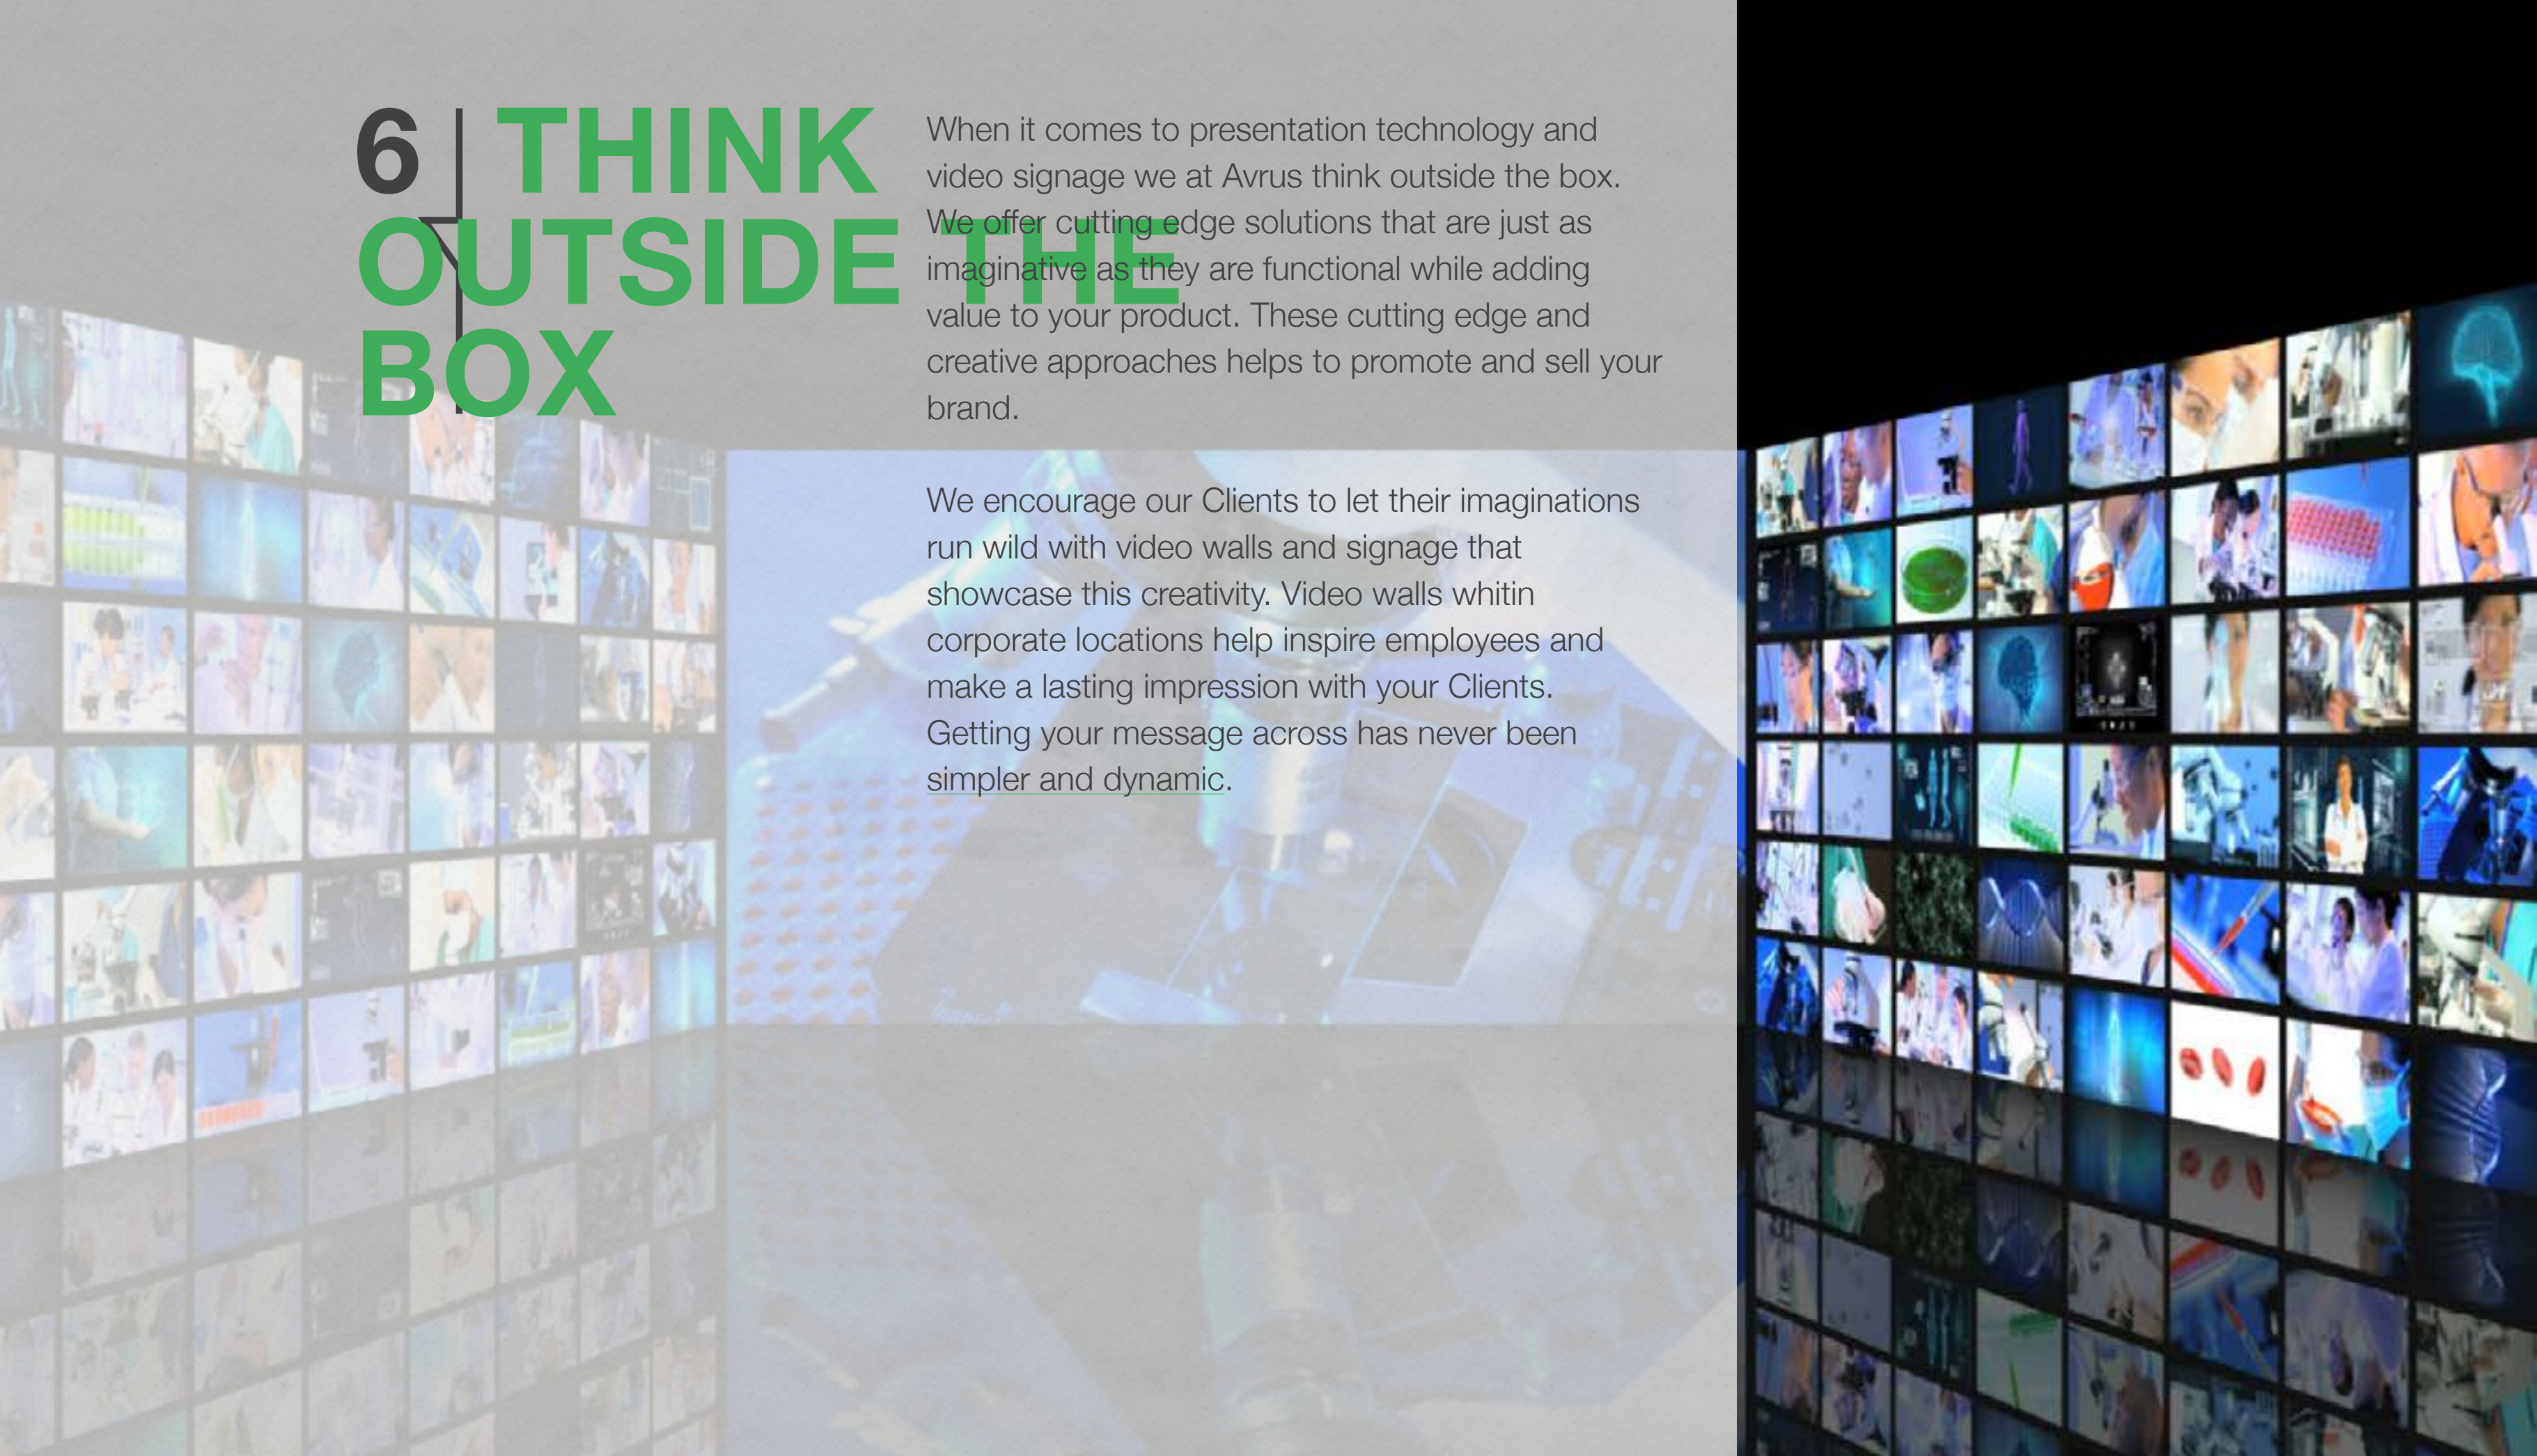

We have lighting control, climate control and energy management systems that are designed to our Clients' specific needs and imagination, and we ensure that all our systems are intuitive and easy to use.

6 | THINK OUTSIDE THE BOX

When it comes to presentation technology and video signage we at Avrus think outside the box. We offer cutting edge solutions that are just as imaginative as they are functional while adding value to your product. These cutting edge and creative approaches helps to promote and sell your brand.

We encourage our Clients to let their imaginations run wild with video walls and signage that showcase this creativity. Video walls within corporate locations help inspire employees and make a lasting impression with your Clients. Getting your message across has never been simpler and dynamic.

7 | PURE SONIC BLISS YOU DESIRE

‘We believe that audio and visuals play a vital part of the human experience.’

Whether you feel warmth and depth of your favourite movie from one of our home theatre solutions, entertaining your clients with one of our background music solutions or listening to the pure crushing power of our club or live music solutions.

We can deliver the pure sonic bliss you desire

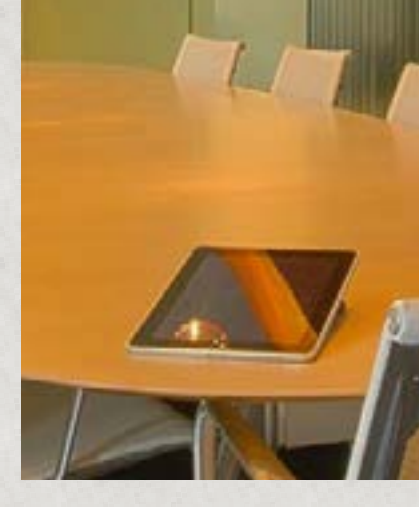

8 | **WE PUT CONTROL AT YOUR FINGERTIPS**
